Request a property report and vegetation maps

A property report provides property information and maps to help you identify [clearing requirements \(https://www.qld.gov.au/environment/land/management/vegetation/clearing\)](https://www.qld.gov.au/environment/land/management/vegetation/clearing) and [available clearing options \(https://www.qld.gov.au/environment/land/management/vegetation/clearing-options\)](https://www.qld.gov.au/environment/land/management/vegetation/clearing-options). The report will be emailed to you as a PDF, free of charge.

Property report contents

The following maps are available in the vegetation management report:

- **Regulated vegetation management maps** show vegetation categories needed to determine clearing requirements. Maps are generally updated monthly to show new [property maps of assessable vegetation \(https://www.qld.gov.au/environment/land/management/vegetation/maps/map-correction\)](https://www.qld.gov.au/environment/land/management/vegetation/maps/map-correction).
- **Vegetation management supporting map** provides information on regional ecosystems, wetlands, watercourses, and essential habitat and factors.
- **Protected plants flora survey trigger map** is needed to determine if any part of the [proposed clearing is within a high risk area \(https://environment.des.qld.gov.au/licences-permits/plants-animals/protected-plants/map-request.php\)](https://environment.des.qld.gov.au/licences-permits/plants-animals/protected-plants/map-request.php).
- **Koala habitat areas and koala priority areas map** is needed to determine if any part of the proposed clearing is within a Koala Priority Area or Koala Habitat Area.

Viewing maps on Queensland Globe

The regulated vegetation management maps and the vegetation management supporting map can also be viewed through [Queensland Globe \(https://www.business.qld.gov.au/business/support-tools-grants/services/mapping-data-imagery/queensland-globe\)](https://www.business.qld.gov.au/business/support-tools-grants/services/mapping-data-imagery/queensland-globe). After you've accessed the Globe:

1. Zoom in to the area of interest on the map or use the search function.
2. On the left-hand side of the screen, click **Layers**. An **All Layers** panel will appear.
3. At the top of the panel, click **Add layers**.
4. Click the down arrow next to **Biota (Flora & Fauna)** to expand that layer.
5. Select **Vegetation management information**.
6. Select the map/s you want to display.
